# Why Not Sanitize Your Air?

ECO AirProtect Portable is the first of its kind personal air sanitizer! This patented clip-on pouch is designed to slowly release the powerful antimicrobial agent chlorine dioxide, which can help provide protection against airborne pathogens.

## What is ECO AirProtect?

ECO AirProtect Portable — the first of its kind personal air sanitizer!

- Contains sodium chlorite ( $\text{NaClO}_2$ ) as the active ingredient
- Releases chlorine dioxide ( $\text{ClO}_2$ ) gas
- Works for 30 days in a 3-foot radius
- Sold in pharmacies across the United States
- Endorsed by medical doctors and pharmacists
- Designed for travel, public interaction, and everyday life

ECO AirProtect highly recommends following all published CDC guidelines for cold, flu, and virus protection.

## The Power of Chlorine Dioxide

With sodium chlorite ( $\text{NaClO}_2$ ) as the active ingredient, ECO AirProtect uses patented technology to release chlorine dioxide ( $\text{ClO}_2$ ) gas steadily for up to 30 days.

### **Strong Antibacterial Effect**

Chlorine dioxide has two and a half times more oxidizing power than general chlorine agents used for disinfection.

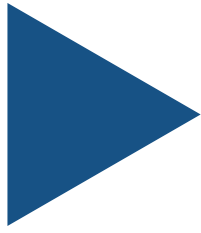

### **Safe to Use**

The concentration of chlorine dioxide emitted by ECO AirProtect Portable is considered safe and is approved by the World Health Organization (WHO).

### **Strong Deodorization**

Chlorine dioxide also decomposes many particles that cause bad odors.
