## MEDICAL DISINFECTION CABINET

## C4I-MDC

For the medical industry, the importance of disinfection is self-evident. Disinfection is an important measure to ensure the safety of surgery and inspection. Disinfection can maximize the safety of patients and medical staff. In addition to basic environmental disinfection, some items, such as reusable surgical instruments, are also strictly disinfected.

### The role of disinfection cabinet

The disinfection cabinet can contain the items that need to be disinfected for comprehensive and full disinfection. As we all know, ozone has a strong oxidizing property, so it can be used to kill bacterial viruses with a sterilization rate of more than 99.99%. This disinfection cabinet is a customized product, which can be customized in many aspects according to the actual use of the customer.

### Customized contents of disinfection cabinet Capacity customization

The capacity of the disinfection cabinet can be customized according to the needs, and it can be set to open door or drawer type, and the number of layers can be customized. To facilitate the disinfection of clothes, a suspension beam can be installed for hanging clothes.

### Customized disinfection methods

The disinfection cabinet can be customized for disinfection methods, including UV disinfection and ozone disinfection. The price and applicability of different disinfection methods will be different, and they are recommended according to the actual situation of the customer.

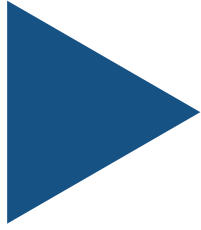

### Features customization

The disinfection cabinet can be customized with small functions such as over-timing function, LCD display function, power adjustment function, etc.

### Features :

- Box design, easy placement.
- High quality stainless steel figure, durable and protect inside.
- Adapted corona discharge technology, long service life.
- Easy to operate, save time and worry.
- Low energy consumption, environmentally friendly.
- Optional timer function, free from repeat settings.
- High quality stainless steel figure.
- Optional ozone concentration regulation function.
- Customizable separation or integrated design.
- Chinese/European/US plug.
