- A combination of quality, durability and protection of the user is what this vest makes an excellent choice for security corps members in high risk zones
- High level of modularity and the protected area by adding (optional) covers for user's vulnerable zones –neck, shoulders, groins
- Made in materials of the highest quality, and high durability
- MOLLE system makes this vest quickly adjustable to the user for a defined configuration of casings
- Hermetically sealed ballistic insertion DUPONT™Kevlar®
- Made in compliance NIJ STD 0101.04 – Level IIIA; possible addition of protective ballistic plates
- Quick removing in two steps
- Made in 4 sizes: M, L, XL, XXL in customized colors
- Besides the standard protection level, the vest can be manufactured in version NIJ STD 0115.00 – thus providing protection against knife stab
