Dual-Tube Tactical Goggles NV-DT-GO

The new NV-DT-GO is a dual-tube goggle system with more ergonomic design and improved functionality. It accommodates features such as a dedicated Instant-On-IR button to quickly and momentarily engage the IR illuminator without having to operate the switch.

The connector located at the front of the unit is used to supply power from almost any power source: external battery pack, USB power bank, 12V car socket, etc. The NV-DT-GO also offers the option of being equipped with Bayonet or Dove-Tail style brackets.
