C4i SENTRY® ARMORED PERSONNEL CARRIER

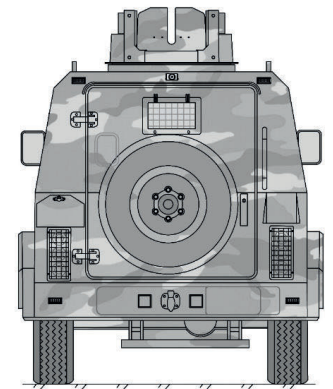

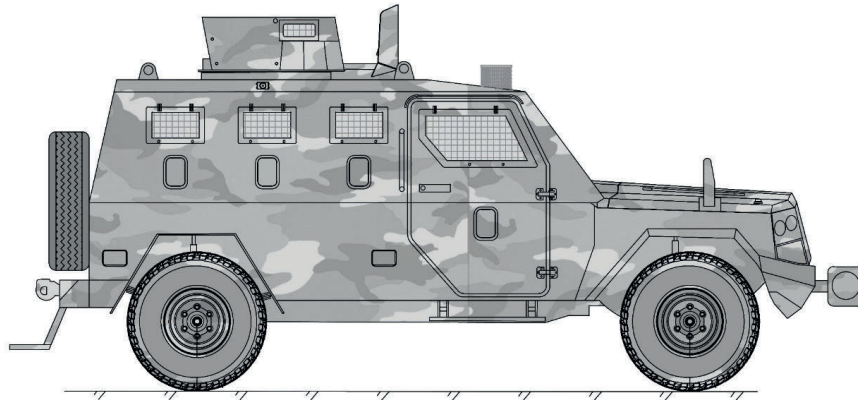

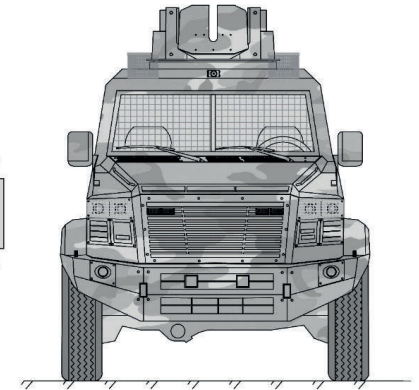

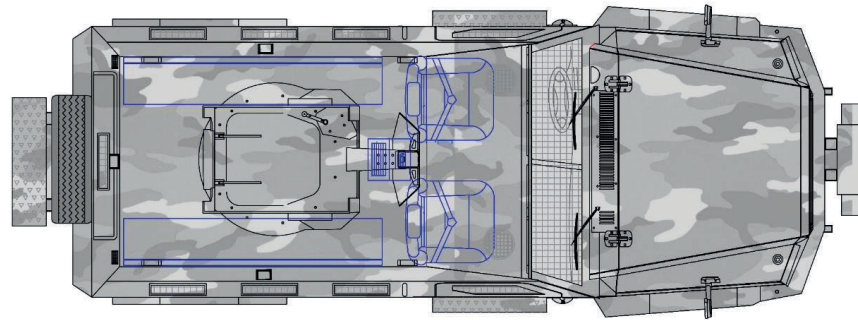

INTRODUCTION

The C4i Sentry APC is a light-weight armored personnel carrier specifically designed for border patrol and reconnaissance missions. Its high mobility, great maneuverability and survivability make it ideal for both highly dense urban settings, as well as rural theatres. With a selection of diesel and petrol engines, available in both LHD and RHD configurations, this highly versatile APC can be used globally. The C4i Sentry APC has three doors (one on each side and one on the rear) for ease of access and can seat up to 8 fully geared personnel. It can be equipped with a roof escape hatch and an optional turret system.
